Abstract

The Seventh Framework Programme (FP7) for Research and Development is the European Union's main financial tool to support research activities. It runs from 2007 until 2013 with a total budget of €50.5 billion.

This session, organised by the Portuguese FP7 Promotion Office, aims at sharing new project ideas, networking among participants, facilitating new consortia for European Transport projects and internationalization of research-based Transport clusters. In this session, the future funding opportunities for the Transport Sector (rail, road, water and air) will be discussed; an evaluator of FP7 Transport proposals will give the participants useful tips on how to write successful proposals; and a group of European industries and research centers with strong participation in FP7 will share their experiences in European projects.

Get involved in FP7!

- Send us your institutional profile and/or send us your ideas for upcoming calls (max. 1 page). We will compile and disseminate it within the Conference participants and NCP European Network;
- Find out more funding opportunities for Transport in other themes: Energy, Information and Communication Technologies, Environment, Socio-economic sciences and Humanities, Security;

[SPECIAL SESSION]

- Get to know the European Network of National Contact Points.
